

CROW WORKS

UPHOLSTERY
CAPABILITIES

HANDMADE. DETAIL. QUALITY.

Bringing years of shared experience, technique, and artistry, our Textiles team creates products that can transform any space with warmth, texture, and color.

Every step of our upholstery process is done by hand, allowing us to focus attention on detail, ensuring quality and care in every project. We use high-quality materials and reinforce every stitch so our products exceed expectations in commercial environments.

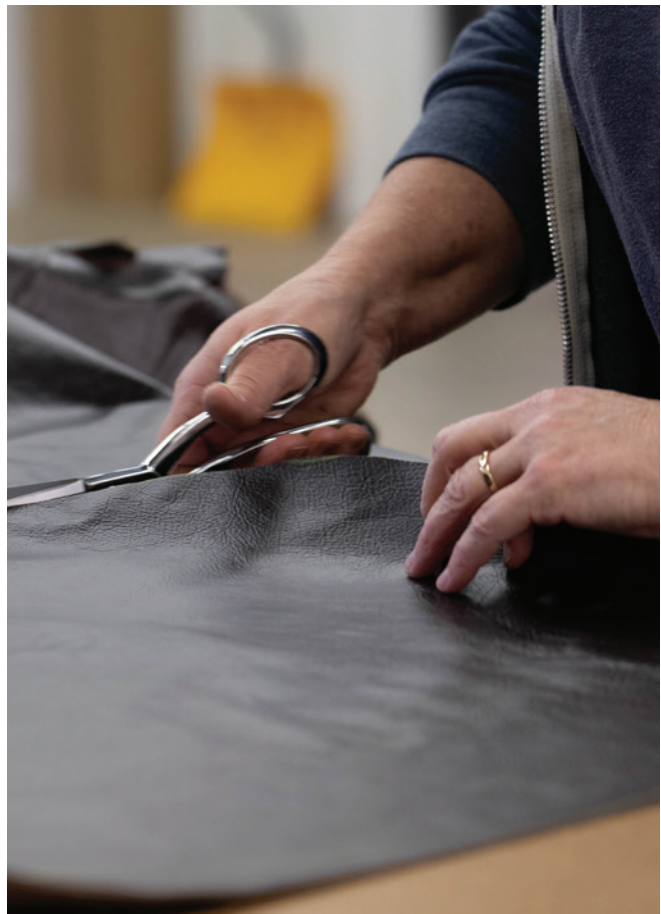

Our collection of responsibly-sourced upholstery materials includes leather and fabric, and we also have the ability to work with our clients' own material and leather. We've partnered with clients to create a variety of custom upholstery pieces, including diamond-tufted banquettes, wall-mounted vertical channel backs, and padded bench seating.

TRANSFORM YOUR SPACE

We believe textiles have the ability to transform an environment, adding texture, color, and warmth to any space.

With textiles you can mix and match to make every product feel unique. The choice is up to you and we can't wait to see what you come up with.

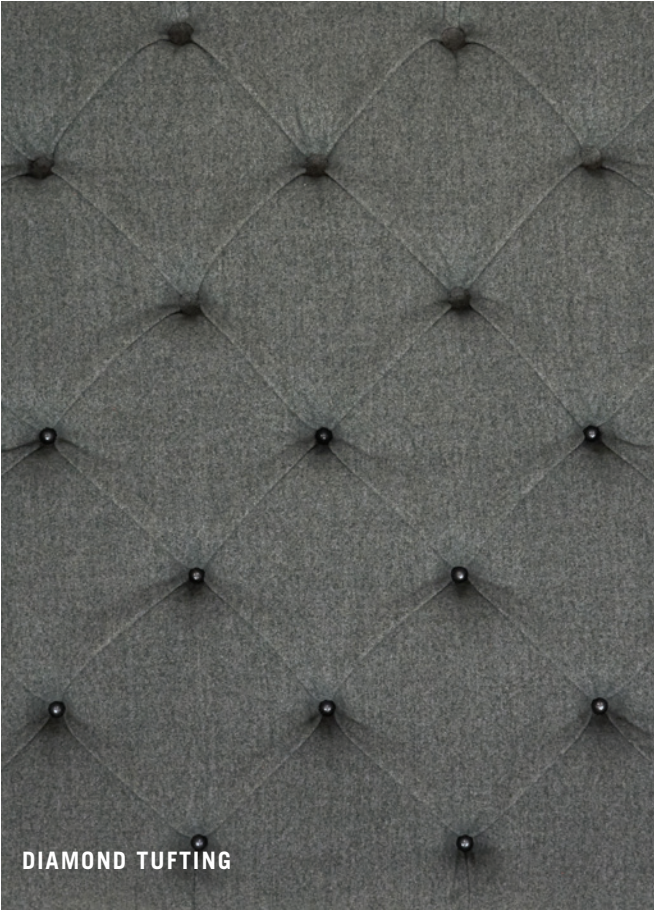

MEET THE MAKERS: THE TEXTILES TEAM

Our Textiles team is a key part of Crow Works' custom capabilities. Take a look at this video to learn more about the process and the people behind it:
