

Corian Solid Surface is an advanced composite product used as an architectural and design material in a variety of residential and commercial applications. Corian Solid Surface offers design versatility, functionality, and durability.

CARE AND MAINTENANCE

- Generally, a damp microfiber cloth used with a standard household kitchen spray should remove most stains.
- For most residues, all you need to clean your Corian Solid Surface countertops is warm soapy water, ammonia-based household cleaner, or a dedicated countertop cleaner. Do avoid window cleaners, however, as they can leave a waxy build-up that dulls the surface. Always clean using a circular motion.

COLOR OPTIONS	Glacier White, Everest, Deep Titanium
MATERIAL DETAILS	1/3rd Acrylic Polymer and 2/3rd Natural Minerals
TEXTURE	Smooth
UV COLORFASTNESS	Color change of less than or equal to 5 ΔEab units in 10 years. Good choice for exterior application. (5-15 ΔEab units for Deep Titanium)
STAIN RESISTANCE	High
