

A photograph of a Starbucks cafe interior. In the foreground, a brown leather booth with vertical stitching is visible, with a light-colored wooden table attached to it. The background shows a counter area with various items and a person working behind the counter. The lighting is warm and ambient.

CASE STUDY:

## STARBUCKS

—

For over 8 years, we've partnered with Starbucks and used their design inspiration to bring their vision to life. The resulting collection features beautiful and sustainable products that were designed to withstand the wear and tear of extensive daily use and could be produced on a large, nationwide scale.

Each piece is made with natural materials—particularly American White Oak and American Black Walnut—intended to complement their warm color scheme and rich environment, creating an elevated yet inviting space. Our bold, durable products combine both beauty and function.

“Crow Works continues to deliver great customer service and I highly recommend them as a vendor.”

STARBUCKS**

## SOLID HARDWOOD TABLETOPS

—

Our products are crafted from American White Oak, American Black Walnut, and American Hard Maple. These quintessential hardwoods are considered among the most durable. Our wood is a proprietary blend that elevates the under-utilized parts of the tree, focusing on character, durability, and beauty.

Our region is net positive in tree harvesting and we take care in our sourcing to see that nothing goes to waste. As part of our commitment to sustainability, we initiated our “Tree for Every Top” program in 2021. For every tabletop we sell, we plant a sapling in our community as an investment in the environment.

Each solid hardwood tabletop is finished with a durable, UV-resistant, matte top coat. This makes our products built-to-last as well as easy to clean. Our signature finishes complement and emphasize the natural beauty and color of the wood.

“Love your furniture and your customer service, proactive order tracking and shipping confirmations are amazing!”
