STEEL

We utilize cold rolled and hot rolled steel depending on the needs of the design. Both methods produce made-to-last products that can be easily customized. Steel can be cut and welded for versatile use.

CARE AND MAINTENANCE

- Use a solution of mild soap and water for cleaning.
- Dry promptly.

CAST ALUMINUM

Created using a sand cast, this slow and meticulous process adds durability and strength to the aluminum. A lighter alternative to steel in terms of weight, it can be easily customized with our selection of finishes and RAL color matching.

CARE AND MAINTENANCE

- Use a solution of mild soap and water for daily cleaning.
- Dry promptly.
